**DETAILED DESCRIPTION OF A PARTICULAR EMBODIMENT**

Page 4, line 1, please amend the paragraph starting on this line as follows:

Amendment  
Serial No. 10/500,333  
Attorney Docket No. 042536

Faced with such a situation, no scientific calculation can seriously help, one must trust the only judge, in the circumstance, the sun, by assisting to its sunset in the new location. Then, by entering the correction via the push button (4), push button (3) being a conventional time-change button of the watch.

Page 5, line 3, please amend the paragraph starting on this line as follows:

Since the solar ephemeris concerns both hemispheres, it is beneficial to grant to the moon also the possibility, at each passage across the equator, to present an inverted image, as seen in a mirror. This is obtained via a winding mechanism (5) which, when pulled or pushed, reverses the rotation direction of the cache, then, by turning it to the right or to the left, makes it possible to actualize the phase, going directly from phase 9 (8) to phase 13 (14) (Fig. 3).

Page 5, line 8, please amend the paragraph starting on this line as follows:

The prestigious watches may not have interest in being manipulated, charged, changed, in which case they may integrate in their wrist band what they hesitate to have done on their dial. The watch of Figure 4 integrates in the wrist band 3 (7) complications and a battery.
